Attachments: 19 March RSC PFAS KD.DI Final.pptx

Hi Rick,
Here's the presentation so far. 9 am in the Shenandoah room 4th floor. See you then.
Thanks,
Kathy

Kathy,

I will get our PowerPoint to Wale later tonight.

When and where will this session be held?

Thanks,

Rick

Hi Rick and Roger,

The PFAS presentation is next Tuesday and I haven't heard back from you. I would like to coordinate topics and would rather you talk about the drinking water issues – when would you like to talk about it?
Thanks!

Kathy

Kathy,

I'd like to support this. I'll talk with Roger and we can figure out how to do so.

We'll get back to you as soon as we can.

Rick

Subject: Presentation at Regional Science Council seminar - PFAS

Hi Rick and Roger,

The Regional Science Council is sponsoring a series of seminars on topical issues for Regional folks. The first one proposed is for PFAS on March 12. Dawn Ioven and I will be speaking about the chemistry, fate and transport, toxicology and prevalence of these compounds in products and industrial processes. Would one (or both) of you like to talk about the issues you've faced regarding the impact of these chemicals found in drinking water sources? Our allotted time is an hour, so we were thinking each of us would speak for 15 minutes, with a Q&A period of about 15 minutes at the end of the presentations.

Please let me know if you have any questions or would like to talk about it. Hope you can join us!

Kathy
